PETITION UNDER 37 C.F.R. §1.183

Assignee hereby petitions the Commissioner under 37 C.F.R. §1.183 for a suspension of 37 C.F.R. §1.705(d) and (e) and for acceptance of the "APPLICATION FOR PATENT TERM ADJUSTMENT UNDER 37 CFR 1.705(d)," which is filed with this petition, to correct the erroneous patent term adjustment (PTA) calculation. Assignee may lose 262 days in the life of its patent through no fault of its own, seriously prejudicing Assignee in fully enforcing its statutory patent rights if this petition is not granted.

The above titled patent was issued on July 1, 2008. At the time of the issuance, the Office interpreted the law in a way that did not support correcting the PTA calculation. In fact, the applicant made an earnest attempt to follow the rules and law as have been set forth by the Office. On September 30, 2008, the U.S. District Court for the District of Columbia issued an opinion in *Wyeth v. Dudas* (*Wyeth et al. v. Jon W. Dudas*, U.S. District Court, D.C., CA No. 07-1492, Mem. Op. September 30, 2008), which made clear that the Office's method for calculating the PTA was in error. As a result of this change in the law, which occurred more than 2 months after the above entitled patent issued, petitioner could not reasonably have timely presented a request for reconsideration of the patent term adjustment.

This case presents the rare instance where the Office's application of the rules has been overturned by the courts. In such exceptional cases, it would be manifestly unjust to punish those who made an earnest attempt to comply with the laws and regulations as interpreted by the PTO.
